KOREA SELVES THE SEEN START OF JAP DOMINANCE

Nation Nearly Strangled as
Means to Bridge Asia,
Whang Avers.

By E. K. WHANG.

Korean Commissioner to Europe. The conference now sitting in Washington should have ten member nations instead of one, as at present. My country, Korea, certainly has more right to sit in it than some of the small powers participating in the parley.

Some of the questions discussed by them and settlement thereof carries vital concern to the Korean nation—her present and her future. I still hope that the powers will see the injustice done to my country.

The object of the conference is to remove the causes of future wars, especially in the Far East, and thereby bring about the disarmament possible and the burden of taxation lessened in all countries.

Korea is Hub in Far East. It is universally admitted, except in Japan, that the Korean question is the beginning and the orbit of all Far Eastern problems. It must not be forgotten that the brutal annexation of Korea by her ally, Japan, in 1910, was the dawn of the fateful day in the Far East as much as in the Pacific.

Mind you, every one of the powers present here entered into solemn treaty obligations with my country not so long ago, guaranteeing the political independence and territorial integrity. But where is Korea today? It is true that Japan's policy, in Korea is mainly of concern to Korea, as it affects their lives, their liberty, their property and their happiness. And it is mainly of interest to you Americans because it is a revelation of the policy of expansion of Japan—a policy which cannot fail in the end if carried out to the logical conclusion—to be fatal to the interests of the United States as well as to the whole of Asia.

"Brigands" Are "Minute Men." The Japanese refer to northern Koreans who protest against Japan's absorption of our country as "brigands." As a matter of fact, the men to whom they refer are regular organized soldiers, using the only known method of meeting the continued forcible advance of Japanese military forces in Korea. They are fighting for the freedom of their nation, just as the Minute Men fought at Lexington.

The Japanese statesmen and publicists and their western friends try to justify the wanton destruction of my country on the ground that they are compelled to find "places in the sun" for their overgrowing population produced by jungle law. Of 300,000 Japanese in Korea, 75 per cent are officials, police, and army personnel. That is to say, only 75,000 traders, coolies, and farmers crossed into Korea in fifteen years, and all of them are exploiters. That does not look like Japan wants Korea for her teeming millions.

Korea Merely Bridge to Asia. The cold fact is that Japan wants Korea as a bridge to continental Asia to further her military expansion and domination of China and Siberia.

Despite all assurances and declarations of Japanese officials, so-called liberal members of the Diet, and women suffrage leaders in this country at this moment, the Japanese militarists control the policy of their country. The absorption of Korea is only the first step in their avowed policy. The next step is the absorption of Manchuria and Mongolia, which already largely accomplished. Then comes the domination of China. They are steadily proceeding with amazing success.

I would like to remind you people of America of one solid and logical fact. Should Japan remain in Korea and dominate China, she will be in a position to dictate to you and to all other nations and to compel them to admit their colonies as settlers. The consequence will be that Japanese ideals, Japanese militarism, and Japanese ways will rule the world.
